FULL CHAMBER REINFORCEMENT STEEL  
 (GERMANY DIN EN ISO STANDARD)

## Rubber Series

1/UPVC with gray rubber, black rubber  
 etc. 2/EPDM seal rubber.

### EPDM SEAL RUBBER

UPVC WITH SERIES

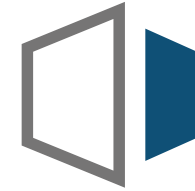

BLACK RUBBER

GRAY RUBBER

The automobile-grade EPDM sealing rubber features a central part that is created through a single rubber ring vulcanization process. This construction is tailored for exceptional environments, allowing it to endure temperature variations ranging from -40°C to 500°C, with a service life that can extend up to 30 years.
